2. **FURTHER ACTION**

If a demand for international preliminary examination is made, this opinion will usually be considered to be a written opinion of the International Preliminary Examining Authority ("IPEA"). However, this does not apply where the applicant chooses an Authority other than this one to be the IPEA and the chosen IPEA has notified the International Bureau under Rule 66.1bis(b) that written opinions of this International Searching Authority will not be so considered.

If this opinion is, as provided above, considered to be a written opinion of the IPEA, the applicant is invited to submit to the IPEA a written reply together, where appropriate, with amendments, before the expiration of three months from the date of mailing of Form PCT/ISA/220 or before the expiration of 22 months from the priority date, whichever expires later.

For further options, see Form PCT/ISA/220.

Re Item V

Reference is made to the following document: **D1: EP-A-0 389 764.**
D2: US-A-4 586 619

The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of independent claims 1 and 25 is not new in the sense of Article 33(2) PCT.

claim 1.

The document **D1** discloses: a display panel (3) having first and second opposing edges, the first edge comprising a male part (4a) of a hinged connection and the second edge comprising a counterpart female edge (4b).

All the features of claim 1 are therefore disclosed.

claim 25.

D2 also discloses: a display system having plural rectangular display panels (12), each having opposing faces, first and second opposing long and short edges, wherein each panel is configured to be hingedly and releasably connectable to a respective other panel along its long edges (see figs), and to be releasably connectable to a respective other panel at its short edges.

All the features of claim 25 are therefore disclosed.

Dependent claims 2, 3, 5-14 and 23-25 do not contain any features which, in combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step, see document D1 and the corresponding passages cited in the search report.

However, the combination of the features of dependent claims 4, 15-22 and 26 appears neither to be known from, nor rendered obvious by, the available prior art.
